INTRODUCING

Curator Concierge

An on-demand art curation service tailored specifically for design professionals and everyday tastemakers, presented by MIXD Gallery.

Curator Concierge is designed to save design professionals time when curating art for their commercial or residential projects and help them bring their full vision to life.

All artwork is sourced directly from MIXD Gallery, giving you a variety of mediums, sizes, and price points from artists working from or living in the Ozark region.

You'll also be equipped with meaningful stories behind the art you present – making for an easier client pitch, projects with heart, and a win for you.

Plus, when you select pieces through our MIXD Gallery Curation Concierge, you'll be extended a 10% savings on all artwork sold — yours to keep as a partner perk or pass on to your clients for an added incentive. In addition, shipping is always on the house.

Simply sign up [HERE](#) to apply to become a Trade Partner to receive these perks.
